

My fellow Voyageurs

In December I travel from Michigan City to Tell City and points in between. I want to thank Allan Stupp from V843 for inventing me to help with the IVH presents and the Christmas party for the children at V3464. I really did see Santa and he is real.

I also helped V276 with the Christmas party for handicapped children and V276 also had a great Christmas dinner. As well V931 Martinsville who was so nice to me and put me up for the night.

On January 11 we stuffed envelopes at Voiture Nationale in Indianapolis with the help with the help of both the 40/8 as well as the Le Femmes.

Thank you so much

Grande Chef de Gare
